

Jack Slamer – Press Release

For half of their lives, four people from Winterthur have been rocking their shirts to rags and have always had the one name: Jack Slamer. The release of their third studio album *Keep Your Love Loud* at the end of 2020 on *Nuclear Blast* (produced by Tommy Vetterli at New Sound Studio) was followed by some great shows in 2021: at the Z7 in Pratteln, at the Winterthurer Musikfestwochen, at the Openair Gampel etc., the wild year was concluded with a tour of Spain in November 2021. Since summer 2022, however, it has become quiet around the band. Things had to be sorted, new paths taken, the situation reassessed and the decision has been made: The quiet has now an end!!! Back are the boys from the neighborhood, in the luggage a lot of noise, fresh wind and galloping forward energy.

From 2023 on, however, new as a foursome: Cyrill (guitar) left the band and with one man less the groove changes of course. However, the fifth uncounted band member remains: the Rock'n'Roll. And he sweats himself so much into the flower shirt! Jack Slamer at its newest - full of energy to explore the limits of the possible again in the new formation. So it should be an exciting year with the four guys from Winterthur, who will rock many stages and whose racy as well as epic sound should turn many shirts into rags.
Stay tuned & keep on rock'n'rolling!
